Education

KIET Group of Institutions

B.Tech in Computer Science and Engineering (CGPA: 8.7)

2024 - Present

Ghaziabad, Uttar Pradesh

Experience

Full Stack Developer Intern

May 2025 - June 2025

- Developed a MERN-stack Community Noticeboard Platform to streamline notice sharing within the college.
- Implemented login/signup, admin approval, CRUD operations, and responsive design using React, Node.js, Express, and MongoDB.

Technical Skills

Languages: Python, JavaScript, Java, TypeScript, HTML, CSS, SQL

Frameworks / Technologies: React, Redux, Node.js, Express.js, MongoDB, RESTful APIs, MERN Stack, Tailwind CSS

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems

Developer Tools: Git & GitHub, VS Code, Postman, Docker

Projects

[SmartExpense](#) | **React.js, Node.js, Express.js, MongoDB** [↗](#)

June 2025 - Present

- Built a MERN-based Expense Tracker with secure logging, categorization, and analytics, optimizing backend performance by 35%.
- Integrated LangChain.js, RAG pipeline, and Gemini API to enable natural-language budget queries and AI-driven insights.
- Implemented JWT authentication with bcrypt and OTP email verification, improving onboarding success by 25%.
- [View Demo](#)

[Netflix Clone](#) | **React.js, JavaScript, Redux, Tailwind CSS** [↗](#)

Aug 2025

- Built a Netflix-style streaming platform displaying 600+ movies and 50+ trending series with a fully responsive UI.
- Optimized search and state management, reducing API calls by 40% and supporting 100+ concurrent users.

[Food Ordering Website](#) | **React, Node.js, Tailwind CSS** [↗](#)

Sept 2025

- Developed a food ordering platform with restaurant search and add-to-cart features, serving 50+ restaurants and 200+ menu items.
- Improved cart performance and checkout flow by optimizing component rendering, reducing page interaction latency by 30%.

Extra Curricular

- Active Member, Innogeeks Technical Club - Web Development
- Participated in multiple technical hackathons such as SprintHacks 3.0 and InnoTech-25
