EDUCATION

KIET Group of Institutions

B.Tech (Computer Science Engineering) - **CGPA: 8.7**

2024 - Present

Ghaziabad, India

PROJECTS

Orbital-CLI 📄 🐙 | Node.js, Express.js, PostgreSQL, Next.js, Commander.js Jan 2026

- Built and published a **developer-focused CLI agent on npm** supporting **chat, web-enabled Q&A, and automated project setup**, generating a structured project architecture.
- Implemented **GitHub Device Authorization** via **Better Auth** with a secure **2-step device approval flow**, using a **Next.js device approval page** for user verification.
- Automated **local workspace project generation** by programmatically creating folders/files, reducing repetitive setup effort by **40%**.
- Engineered high-utility CLI commands for **instant access to YouTube, Gmail, LinkedIn, video search, and music playback**, optimizing developer productivity.

SmartExpense 📄 🐙 | React.js, Node.js, MongoDB, LangChain.js

Aug 2025

- Built a full-stack **expense tracking platform** with CRUD workflows, category-wise analytics, and monthly expense summaries.
- Developed and optimized **REST APIs** using structured controller/service layers and efficient MongoDB queries for better performance and maintainability.
- Integrated an **AI assistant** using **LangChain.js** and **Gemini API (RAG)** to generate contextual insights from user expense history.

Ride-X 🐙 | React.js, Node.js, Express.js, MongoDB, Socket.IO

July 2025

- Built a full-stack **ride booking platform** with **role-based authentication and authorization** for **Rider** and **Captain** workflows.
- Implemented **real-time ride request system** using **Socket.IO**, where captains receive instant notifications, and can **accept/decline** requests with live ride status updates.
- Integrated **OpenStreetMap APIs** for **location suggestions** and **distance-based fare calculation**, enabling accurate pickup/drop search and dynamic pricing.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python

Frameworks/Technologies: React, Next.js, Node.js, Express.js, MongoDB, PostgreSQL

Developer Tools: Git/GitHub, Postman, VS Code, Docker

EXTRACURRICULAR

- Active Member, **Innogeeks Technical Club** – Web Development
- Hackathons: **SprintHacks 3.0**, **InnoTech-25**, **Daksh Hackathon 2025** (**Finalist**, selected among **600+ teams**)
- Open Source: **WOC 5.0**, **GSSoC-25** (collaboration & code contributions)
- Currently exploring **DevOps and Cloud Computing**, including **AWS** (deployment, CI/CD, cloud fundamentals)
- Attended **Global AI Summit 2026** to connect and network with global developers and industry experts
